

RELIABLE TECHNOLOGY PARTNER TO
THE SWISS AIR FORCE – SINCE 1915.

For sovereign security.

RUAG Life-cycle Management – end-to-end support for air defense systems

- ENSURING AVAILABILITY
- BOOSTING PERFORMANCE
- EXTENDING SERVICE LIFE

➤ CAPABILITIES

Technology & Engineering competence

- Development, construction and prototyping
- Production and assembly
- Certification and testing
- Troubleshooting and revision incl. development of repair procedures
- Ground tests and test flights (factory flights)

Supply Chain & Logistics

- Strategic and operational purchasing
- Material planning and warehouse management
- Export control (trade compliance) & transport

➤ RESOURCES

Personnel & Resources

- Qualified and authorized personnel
- Certifications and authorizations
- Technical data packages (drawings, reports, etc.)
- Licenses and manuals

Infrastructure & Equipment

- State-of-the-art infrastructure
- Ground-support equipment, incl. test equipment
- Development and analysis software and hardware

Our projects – a success story

➤ **FINAL ASSEMBLY OF THE F/A-18, F-5, SUPER PUMA, EC-635**

Full build-up of maintenance and upgrade capabilities prior to aircraft delivery.

➤ **UPPER COCKPIT LONGERON (UCL) EXCHANGE ON THE F-5**

Replacement of highly stressed structural components enabled the fleet to continue operations.

➤ **PC-6 UPGRADE (NCPC-6)**

Replacement of analog devices with electronic instrumentation and central displays.

➤ **F/A-18 STRUCTURAL REFURBISHMENT PROGRAMS**

Installation of more powerful and robust structural components to extend the platform's service life (from 5000 to 6000 flight hours).

➤ **REPLACEMENT FOR FLIR THERMACAMS ON THE SUPER PUMA**

Superior infrared camera upgrade greatly boosted performance.

➤ **SUPER PUMA/COUGAR UPGRADE (WE89 & WE98)**

Modernization of various systems restores the Cougar TH98 to a good-as-new condition.

➤ **F/A-18 UPGRADE PROGRAMS**

Modernization of various instrumentation to ensure state-of-the-art system capabilities.

➤ **OPERATIONS EXTENSION PROGRAM FOR F-5E/F TO EXTEND BEYOND SCHEDULED DECOMMISSIONING**

Additional personnel from the global business were called on at short notice to handle the large number of inspections required.
