

Helicopter Services

CENTER HELICOPTERS

For sovereign security.

Committed to Excellence

➤ The operational readiness of helicopters is the key to any successful mission. There is simply no room for compromise. To ensure that military, governmental and civil operators can fulfil their operations, they have to rely on available, high-performance systems at all times. As a first-class technology partner, we guarantee the maximum availability of helicopters throughout their entire life cycle.

We put your individual needs first. With more than 50 years of experience as an excellent helicopter service provider, we deliver added value for selected civil, governmental and military helicopters by improving safety, enhancing performance and increasing comfort.

More than 120 highly qualified specialists from RUAG are dedicated to helicopters at three base stations in Switzerland. Long-standing and strong relationships with various OEMs enable us to provide high-quality services [see Service Overview], all from one single source and in every one-stop shop.

First choice technology partner

➤ Helicopter operators worldwide trust our expertise and benefit from our wide range of helicopter services. We focus on I- and D-level maintenance, repair and overhaul of airframes, engines and dynamic components [EASA Part-145]. In addition, we offer turn-key solutions through design, development, integration and certification with our own DO-approval [EASA Part-21].

Special tasks for the helicopter fleet Airbus H135M and Airbus H215M of the Swiss Air Force:

- Fleet management including CAM [Continued Airworthiness Management]
- System engineering including modifications and upgrade programs
- Single source material SCM [Supply Chain Management]
- Customized documentation service

YOUR BENEFITS AT A GLANCE

➤ CONTINUOUS RESOURCES

We have several type-rated staff members for every maintained helicopter as well as a generous, state-of-the-art infrastructure. Furthermore, we maintain strong and longstanding relationships with the OEMs, allowing us to have resources continuously available and to deliver high quality services.

➤ SINGLE-SOURCE SOLUTIONS

Our one-stop shop solutions enable us to offer you a wide variety of services, all from a single source. Reliability, cost efficiency and reduced turnaround times are the focus of our customized solutions.

➤ RELIABLE PARTNER

We are flexible, reliable and transparent. Our partners appreciate our values such as collaboration, high performance and visionary thinking – all reflected in our many years of success and experience within the field.
